

## **ARMSTRONG TEASDALE RECEIVES LEGAL INNOVATION AWARD FOR COVID-19 RESOURCE CENTER**

Missouri Lawyers Weekly has recognized Armstrong Teasdale with a [Legal Innovation Award](#) for the firm's COVID-19 Resource Center. Launched in the early days of the coronavirus outbreak, the page was created and published at the same time that the firm was pivoting to a work-from-home model. The online portal was created as a resource for clients providing access to an authoritative repository on the rapidly changing information needed to run their businesses and navigate an uncertain environment.

Featuring contributions from more than 60 attorneys and highlighting more than a dozen COVID-19 related webinars, the resource center will continue to operate post-pandemic, looking ahead to the impact and implementation of recovery plans.

The award is highlighted in a special section of the Dec. 21 issue.
