Cianan Roden-Corrent focuses his practice on patent law. Working with inventors, he drafts and prosecutes provisional, design and utility patent applications; drafts responses to office actions; and conducts prior art searches.

Leveraging his background in computer science and software engineering, Cianan has produced applications for a range of subject matter areas from mechanical applications to software methods. He also has experience working with individual inventors, many of whom are interacting with the patent application process for the first time.

BACKGROUND

Prior to joining Armstrong Teasdale, Cianan served as a patent and trademark attorney at a Maryland-based patent law firm.
