erussell@atllp.com

Emmett Russell is an associate in Armstrong Teasdale's Intellectual Property practice group. Drawing on his engineering background, he guides clients in preparing and prosecuting patent applications in the mechanical, biomedical, aeronautical, automotive, electrical, and computing arts. In addition to conducting inventor interviews; drafting claims, specifications, and drawings; and responding to Office Actions from the U.S. Patent and Trademark Office and other international patent offices, he regularly performs patentability, infringement, invalidity, and freedom-to-operate analyses.

BACKGROUND

Prior to joining Armstrong Teasdale, Emmett was an associate at a boutique Chicago-area IP law firm.

EDUCATION
