

JULIE O'KEEFE NAMED TO MISSOURI LAWYERS WEEKLY 2024 ENVIRONMENTAL LAW POWER LIST

Armstrong Teasdale Partner [Julie O'Keefe](#) has been named by Missouri Lawyers Weekly to its 2024 Power List for Environmental and Energy Law Attorneys. The list of 36 Missouri attorneys was compiled based on archival research, review of recent verdicts and settlements, and interviews with attorneys and other business leaders. O'Keefe has been named to the list annually since 2022.

O'Keefe's practice spans both environmental and occupational safety and health, which sets her apart from other lawyers, who typically handle one or the other, but rarely both. Governmental agencies she routinely deals with include, among others, the Occupational Safety and Health Administration (OSHA) and state counterparts, the Mine Safety and Health Administration (MSHA), the U.S. Environmental Protection Agency (EPA) and state counterparts. She has represented businesses in regulatory matters in virtually every state in the U.S. For non-governmental transactional matters, O'Keefe's regulatory experience allows her to understand environmental risks and eliminate non-issues.

The list appears in the November 2024 issue of Missouri Lawyers Weekly.
