

KEYUR PARIKH

ASSOCIATE
Denver, CO
720.613.7086
kparikh@atllp.com

Keyur Parikh works with clients to secure and develop patent portfolios and defend their intellectual property rights.

With extensive experience in patent law, Keyur focuses his practice on patent prosecution and post-grant issues across a multitude of technologies. As a former software engineer for large telecommunications companies in the U.S. and India, he has strong experience working with clients in a variety of industries, including software, telecommunications, broadcast systems and medical devices.

BACKGROUND

Prior to joining Armstrong Teasdale, Keyur served as an associate at law firms in Denver and Washington, D.C. He previously worked as a patent attorney and as a software engineer working with technologies such as front-end and back-end mobile application development, Java application development and databases.
