

TYLER L. COBB

PATENT AGENT

St. Louis, MO

314.621.5070

tcobb@atllp.com

Tyler Cobb brings a diverse background in project management to his work as a patent agent, including experience with significant heavy construction projects in the oil/gas/chemical, pulp and paper, and industrial sectors.

With previous experience as both a pipe engineer and a manufacturing engineer, Tyler possesses a deep understanding of the technical intricacies involved in various industries. His analytical and critical-thinking skills honed through this experience have made him adept at navigating the complexities of patent law to drive successful outcomes for clients.

He is also skilled in 3D modeling, drafting, prototyping, and American Society of Mechanical Engineers (ASME), National Fire Protection Association (NFPA) and American National Standards Institute (ANSI) codes.

BACKGROUND

Prior to joining Armstrong Teasdale, Tyler was a project manager at a mechanical contracting firm.

EDUCATION

- Michigan Tech University (B.S., 2021)
 - Mechanical Engineering and Engineering Management
